

ManyVal '08 - Applications of Topological Dualities to Measure Theory in Algebraic Many-Valued Logic, May 19–21, 2008, University of Milan, Milan, Italy

**STATES OF MV-ALGEBRAS: RECENT DEVELOPMENTS**

DANIELE MUNDICI

We survey recent results on states of MV-algebras and lattice-ordered abelian groups with order-unit, with particular reference to Haar theorem and De Finetti coherence criterion.
